Have you taken Peer Tutoring Before? Yes No

Which course you would be willing to swap out of your schedule for Peer Tutoring?

Peer Tutoring is designed to give students the opportunity to provide support to other students in a subject area that they are competent in and have the ability to assist the classroom teacher in a variety of ways. Assessment and Evaluation for the course is based on a variety of different assignments, teacher evaluation, and student self-assessment. Peer tutors must communicate effectively with e-mail / Microsoft Teams. All students may be requested to attend some learning sessions during Flex time.

A student who has already taken Peer Tutoring 11 may also take Peer Tutoring 12, which has the additional responsibility of planning and delivering a lesson/lessons under the supervision of the classroom teacher.

To be considered for any Peer Tutoring course, a student must have a history of good attendance and citizenship and provide a reference from a teacher (see back of the page).

This reference does not necessarily have to reflect academic excellence but must vouch for the characteristics needed.

Please indicate the subject(s) you would like to assist.
